

MIDLAND

TRADITIONAL

(TD1-Version 202502)

2,240 SQ. FT | 5 BEDS | 2.5 BATHS | 30' X 55.6'

Welcome to the Midland floor plan with its Traditional elevation, a beautifully designed 5-bedroom, 2.5-bath home offering 2,240 square feet of comfortable living space. Its classic exterior features—window shutters, decorative wood accents, a welcoming covered porch, and detailed trim around the entry—create a timeless and inviting first impression.

Inside, a bright foyer sets the tone, with a coat closet and half bath conveniently located to the right. The staircase is thoughtfully tucked away just before the family room, maintaining an open and uncluttered feel. The main living areas flow seamlessly together, creating a connected space ideal for everyday living and effortless entertaining. The kitchen offers generous workspace, modern appliances, and stylish finishes, along with a discreet laundry area and direct access to the garage.

Upstairs, a cozy loft anchors the second floor and leads to the bedrooms and full bathroom. Plush carpeting adds comfort to each bedroom, while tile flooring enhances the bathrooms. The primary suite serves as a relaxing retreat, complete with two walk-in closets and a spacious en-suite bathroom. Here, dual vanities, a standing shower with integrated seating, and dual showerheads come together to create a spa-like experience. The Midland blends timeless curb appeal with a thoughtfully designed interior, creating a home that feels both welcoming and beautifully crafted.
