

PECOS

TRANSITIONAL
(TRN-Version 202601)

1,617 SQ. FT | 4 BEDS | 2.5 BATHS | 36'x68'

Discover the Pecos floor plan by BIC Homes, a thoughtfully designed home that blends comfort, style, and functionality. A welcoming covered front porch invites you inside, where a bright, open-concept layout unfolds. The living, dining, and kitchen areas flow seamlessly together, creating the perfect space for everyday living and entertaining. A rear patio door off the main living area provides easy access to the backyard, extending your living space outdoors.

Just beyond the dining area, a private hallway leads to the home's bedrooms, bathrooms, and laundry room, with convenient access to the garage. The two-car garage is discreetly located at the rear of the home, enhancing curb appeal while maintaining functionality.

The Pecos is thoughtfully appointed with upscale features, including granite or quartz countertops throughout and stylish kitchen pendant lighting. This energy-efficiency-certified home also includes an insulated garage and garage door, as well as a Manabloc plumbing system for added performance and efficiency. Sleek, modern finishes shine in every room, with tile flooring throughout the main living areas and plush carpeting in the bedrooms for added comfort. Every detail of the Pecos has been intentionally designed to support the way you live, gather, and grow—offering lasting comfort and a place to truly call home.
